

What I learned in ASEP

Ritsumeikan Moriyama Junior and Senior High school
Senior High 2-1 Naoya Araki

1. What difficulty did you find when you made a presentation with Taiwanese students?(before you visited Taiwan / while you were cooperating in Taiwanese school)

The most difficult thing was English between non native speaker. When I was making a presentation, sometimes I couldn't tell them what I want to say. But then, I found how I can make my English more easier. I thought that I don't need difficult English especially between non native speakers. I need English which I can tell someone simply.

2. Did you learn something in homestay? (language, culture, the way of living, the way of thinking, food, and so on.)

Yes! I learned a lot. Among them, I especially learned the importance of communication. In this time, the time I spent with host father and mother was limited. In limited time, I thought I have to communicate with them to understand and close each other. Because I did it, I could close to them. And I thought I have to tell everything which I'm not sure. Without it, maybe I didn't know what I do, where it is and so on.

3. What does "learning English " mean to you?

For me, learning English means to get a tool to communicate with foreigners, just tool. Without that tool, I can't understand a foreigner and also a foreigner can't understand me. Sometimes someone says if you have body language, you don't need English. But I don't think so because it is really limited. After ASEP, I am going to continue to get a tool of language, English.

4. What did you learn through ASEP as a whole?

I could learn a lot like above all. I was reminded again of how important English is. When I talk with foreigners, When I play basketball together, When I play together, in all the situation English is very needed. So I am going to improve my English to work in global society.
